**Reasons for Allowance**

1. Examiner has reviewed and considered Applicants comments as indicated on pages 12 – 13 of Applicant's response dated 10/20/2005 and per Applicant's amendments, claims 1 – 20 are now in condition for allowance.

The following is an Examiner's statement of reasons for allowance.

The prior art of record does not teach or fairly suggest at least:

“ a server configured to receive a request for an Open Library Architecture Delay and Power Calculation Module and produce the Open Library Architecture Delay and Power Calculation Module in response to the request, said server configured to create a Delay Calculation Language memory based on the request ”, as best illustrated by Figure 2, in such a manner as recited in independent claims 1, 10 and 20 as pointed out in pages 12 - 14, of Applicant's response (10/20/05).

“submitting a request for an Open Library Architecture Delay and Power Calculation Module, wherein the request specifies a configuration of memories for which the Open Library Architecture Delay and Power Calculation is needed ”, as best illustrated by Figure 2, in such a manner as recited in independent claim 11, as pointed out in pages 12 - 14, of Applicant's response (10/20/05).

“sending the request to a server, having the server generate the Open Library Architecture Delay and Power Calculation Module, downloading from the

server, wherein DCL/DPCM data for a specific memory configuration is created ", as best illustrated by Figure 2, in such a manner as recited in independent claim 16, as pointed out in pages 12 - 14, of Applicant's response (10/20/05).

Therefore, claims 1 - 20 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
